

FACE SHIELD

The Clear-Vu Medical Face Shield is PPE (Personal Protective Equipment) designed by and for doctors, nurses, first responders, and other healthcare workers with space to wear a protective N95 mask underneath.

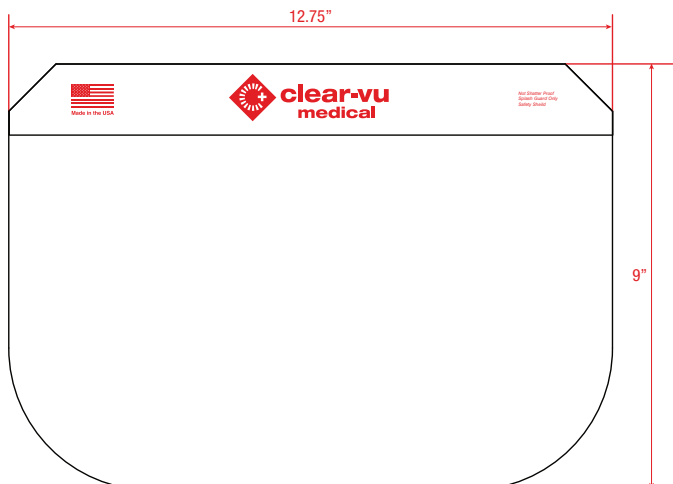

FEATURES

- 2-component assembly
- Wrap-around design provides sealed protection
- Adequate room for N95 mask, goggles, and glasses
- 1.5" thick foam bumper with spaces for ventilation
- Adjustable band for extra comfort for different head sizes
- Protective shield made of thin polymer film
- Light-weight yet extremely durable
- FDA registered

Designed in collaboration with Stony Brook Medicine's Infectious Disease Group and College of Engineering and Applied Sciences

Currently supplied to the State of New York and hospitals nationally
